To MP \_\_\_\_\_

I am writing this letter on behalf of all Canadian Veterans past, present and future in regards to the closing of Veterans Hospitals across Canada.

We understand that at the death of the last Korean War Veteran, the government of Canada will force the closure of all Veterans hospitals across this country. As that is how the Legislation now stands.

We, as member of the Royal Canadian Legion, and on behalf of family, friends and veterans alike, strongly plead with you the Members of Parliament, to bring forward new legislation to allow Veterans Hospitals to remain open for ALL VETERANS from all theatres where Canadian soldiers were injured while serving their Country.

We strongly hope that you find it in your minds and heart to change this legislation before the last Korean Veteran dies.
